SCOPE OF ACCREDITATION INSPECTIONS (EBAA Medical Standards, June 2018)

A1.000 Introduction and Purpose

These standards have been developed to assure consistently acceptable levels of quality, proficiency, and ethics in dealing with ocular tissue for transplantation and define the minimum standards of practice for eye bank functions, as determined by the ophthalmological medical community.

A1.100 Scope

These standards are intended to apply to any and all of the eye bank functions, to include:

- Recovery
- Processing
- Storage
- Tissue evaluation

This list represents information on file regarding the accreditation status of eye banks as of June 28, 2019. The eye banks are listed in alphabetical order by state and categorized by their accreditation designation. If a bank is non-accredited (Denied), it is listed as such with the date of denial. For further information, contact the EBAA office at 202-775-4999.

Eye Bank Association of America's Accreditation Status List

Current as of June 28, 2019 – **Public**

- Donor eligibility determination
- Distribution

These standards shall be reviewed at least annually and revised as necessary to incorporate current research findings and improved clinical practice.

B1.000 Active Membership

In order for an eye bank to become an active member of the Eye Bank Association of America (EBAA), it must comply with the EBAA Bylaws and the following:

1. Demonstrate compliance with EBAA Medical Standards.
2. Maintain accreditation status by passing the site inspection as administered by the EBAA Accreditation Board.
3. Demonstrate proficiency in any aspect of eye banking including recovery, processing, tissue storage, evaluation, donor eligibility determination and distribution.
4. Proficiency shall be demonstrated by providing documentation, at the time of completing the application, of the handling of at least 25 surgical corneas for each eye bank function for which it is seeking accreditation.
5. Certify compliance with applicable Federal and State regulations.
6. Register with ICCBBA for a Facility Identification Number (FIN). This is required for all eye banks that assign a DIN or apply an ISBT 128 label to ocular tissue.

Once accredited, an eye bank must be inspected and reaccredited at least every three years to maintain active membership in the EBAA.

EYE BANK FUNCTIONS (EBAA Accreditation Policies and Procedures, June 2017)

The EBAA Accreditation Board accredits establishments that perform any or all of the following functions:

Recovery

Processing

Storage

Distribution

Tissue Evaluation

Donor Eligibility Determination

CATEGORIES OF ACCREDITATION (EBAA Bylaws, June 2017)

ARTICLE 2 – **MEMBERSHIP**

2.1 Categories of Membership

A. Active (Accredited) Comprehensive U.S. Membership.

An eye bank (or group of eye banks organized and operated as a single legal entity) is eligible for Active (Accredited) Comprehensive U.S. Membership if it (or in the case of a group, each of its members): (1) is organized under the laws of a state, or the District of Columbia, of the United States and is an organization exempt from federal taxation under Sections 501(c)(3), 501(c)(4) or 501(c)(6) of the Internal Revenue Code, or another provision deemed analogous by the Association; (2) provides evidence satisfactory to the Association that it has support among the medical and ophthalmological communities; (3) performs all functions of a comprehensive eye bank, as defined by the Association's Medical Standards; (4) has successfully completed the Association's accreditation process; (5) confirms adherence to the Association's Principles of Professional Conduct (6) is current on all financial obligations to the Association.

This list represents information on file regarding the accreditation status of eye banks as of June 28, 2019. The eye banks are listed in alphabetical order by state and categorized by their accreditation designation. If a bank is non-accredited (Denied), it is listed as such with the date of denial. For further information, contact the EBAA office at 202-775-4999.

Eye Bank Association of America's Accreditation Status List

Current as of June 28, 2019 – Public

B. Active (Accredited) Specific Services U.S. Membership.

An eye bank or a group of eye banks or entity(ies) is eligible for Active (Accredited) Specific Services U.S. Membership if it: (1) is organized under the laws of a state, or the District of Columbia, of the United States and is an organization exempt from federal taxation under Sections 501(c)(3), 501(c)(4) or 501(c)(6) of the Internal Revenue Code, or another provision deemed analogous by the Association; (2) provides evidence satisfactory to the Association that it has substantial support among the medical and ophthalmological communities; (3) performs one or more eye bank functions but fewer than the full functions of a comprehensive bank as defined by the Association's Medical Standards; (4) has successfully completed the Association's accreditation process for those specific eye banking activities it performs; (5) confirms adherence to the Association's Principles of Professional Conduct; and (6) is current on all financial obligations to the Association.

C. Associate (Unaccredited) U.S. Membership.

An eye bank or a group of eye banks or entity(ies) that performs eye bank activities is eligible for Associate (Unaccredited) U.S. Membership if it meets all the requirements for Active (Accredited) Comprehensive or, alternatively, Active (Accredited) Specific Services U.S. Membership except that it has not yet met or does not currently meet the Association's requirements for accreditation.

D. Active (Accredited) Comprehensive International Membership.

An eye bank or group of eye banks or entity(ies) located outside the United States is eligible for Active (Accredited) Comprehensive International Membership if it meets the requirements deemed by the Association to be substantially equivalent to those for Active (Accredited) Comprehensive U.S. Membership, except that it is organized as a charitable, educational or social welfare organization under applicable law of a foreign nation or political subdivision thereof.

E. Active (Accredited) Specific Services International Membership.

An eye bank or a group of eye banks or entity(ies) that performs one or more eye bank activities but fewer than the full functions of a comprehensive bank, and is located outside the United States is eligible for Active (Accredited) Specific Services International Membership if it meets the requirements substantially equivalent to those for Active (Accredited) Limited Specific Services U.S. Membership.

F. Associate (Unaccredited) International Membership.

An eye bank or group of eye banks or entity(ies) that perform(s) one or more eye bank activities but fewer than the full functions of a comprehensive bank, and is located outside the United States is eligible for Associate (Unaccredited) International Membership if it meets all the criteria for Active (Accredited) Comprehensive or, alternatively, Active (Accredited) Specific Services International Membership except that it has not yet met or does not currently meet the Association's requirements for accreditation.

GUIDELINES FOR ACCREDITATION DECISIONS (EBAA Accreditation Policies and Procedures, June 2017)

D1.100 Accreditation Decisions

- a. Results of the site visit are determined by a majority decision of the Accreditation Board following a thorough review of the information and materials submitted by the eye bank and the inspection team.
- e. Accreditation decisions take effect upon official notification of Board decisions (or others as defined by these Policies and Procedures), provided either at an EBAA meeting or through the mail, even when subsequent corrective actions are required. Failure to provide documentation of the implementation of corrective actions to the Board's satisfaction, within the required time frames, may result in loss of accreditation status.

This list represents information on file regarding the accreditation status of eye banks as of June 28, 2019. The eye banks are listed in alphabetical order by state and categorized by their accreditation designation. If a bank is non-accredited (Denied), it is listed as such with the date of denial. For further information, contact the EBAA office at 202-775-4999.

Eye Bank Association of America's Accreditation Status List

Current as of June 28, 2019 – Public

D1.200 Accreditation Status

- a. The below are **guidelines only**. During the inspection team's presentation to the Accreditation Board and the ensuing discussion, the Board may consider other factors in determining accreditation status. These may include, but are not limited to:
 - Corrective actions submitted in the appropriate time frame prior to the meeting of the Accreditation Board (see Accreditation Policy C1.500).
 - Patterns of deficiencies (i.e., over time or by type).
 - Discussion and review of inspectors' specific findings.
 - Repeat deficiencies (deficiencies found on prior inspections for which corrective actions had been submitted which are again found to be out of compliance with EBAA Medical Standards).
- b. Accreditation is awarded on a time-limited basis by vote of the Accreditation Board. All banks awarded accreditation, regardless of the length of their accreditation status, have been found by the Accreditation Board to be in substantial compliance with EBAA Medical Standards. An eye bank that receives no citations following inspection will be recommended to receive maximum accreditation status by motion and approval of the Accreditation Board. The following guidelines are used by the Board:
 - **Three Year** - Acceptable compliance with EBAA Medical Standards in all tier levels (i.e. PT, SO and NC) and in all performance areas (i.e. pre-inspection questionnaire, policies and procedures, Executive Director, Medical Director, QA Director, technical personnel and procedures, lab and equipment, records) demonstrated during the site inspection and upon initial review of the policies and procedures. A score of at least 90% was achieved for each tier level and at least 90% in all performance areas. Follow-up/corrective actions required were relatively minor, and can be completed within the specified time frame(s). Duration of accreditation is three (3) years.
 - **One Year** - Scoring does not meet the threshold for Three Year status, however a score of at least 85% was achieved for each tier level (i.e. PT, SO and NC), and no more than one performance area had a score below 85% (i.e. pre-inspection questionnaire, policies and procedures, Executive Director, Medical Director, QA Director, technical personnel and procedures, lab and equipment, records) during the site inspection and upon initial review of the policies and procedures. It is expected that deficiencies can be corrected through submission of written progress reports and corrective actions within a specified time frame(s). Duration of accreditation is one (1) year.

D1.400 Non-Accreditation

A status of "unaccredited" will result when an eye bank has demonstrated significant noncompliance with EBAA Medical Standards, as in the following:

- a. Scheduled inspection results show:
 1. Scoring that does not meet the threshold for a One Year status, or
 2. Potential threats to recipient and employee safety, or
 3. Noncompliance identified at a prior site inspection that was purportedly corrected is again found during this site inspection, or
- b. The bank's accreditation is withdrawn by the EBAA for other actionable reasons such as:
 1. Failure to comply with required corrective actions following a site inspection
 2. Failure to handle 25 surgical tissues within one year, absent an approved correction plan
 3. Results of an off-cycle inspection

This list represents information on file regarding the accreditation status of eye banks as of June 28, 2019. The eye banks are listed in alphabetical order by state and categorized by their accreditation designation. If a bank is non-accredited (Denied), it is listed as such with the date of denial. For further information, contact the EBAA office at 202-775-4999.

Eye Bank Association of America's Accreditation Status List

Current as of June 28, 2019 – **Public**

4. The bank declines to be inspected upon expiration of accreditation
 5. Noncompliance with EBAA Medical Standards identified during an inspection is determined to require immediate action.
- c. The bank voluntarily withdraws from accreditation.

An eye bank that has been denied accreditation shall be identified as an Associate (unaccredited) Member, (EBAA Constitution & Bylaws, Article 2.1, Categories of Membership). See Accreditation Policy, G1.000, Identification of Accreditation Status.

C1.200 Inspection of Other Location(s) to Parent Banks

- a. Entities that perform any of the following activities on site for tissue intended for surgical use shall be considered satellites as defined EBAA MS Glossary, and shall be inspected as part of the accreditation process of the parent bank;
 - a. Processing (e.g. laboratory corneoscleral disc excisions, laboratory scleral preservation, preparation of lamellar tissue, preparation of tissue for LAK)
 - b. Tissue Evaluation (i.e. slit lamp examination of the whole eye or excision corneoscleral disc, specular microscopy, pachymetry)
 - c. Donor Eligibility Determination (investigate and review medical/social history, laboratory information, obtain autopsy results, interview next of kin, family physician and maintain donor case records, etc.)
 - d. Storage (includes tissue awaiting placement or shipment and tissue that is quarantined or otherwise awaiting surgical eligibility determination)
 - e. Distribution (package and ship ocular tissue directly to consignees and maintain recipient case records)

G1.000 Identification of Accreditation Status

- a. An accredited eye bank may identify itself as such and hold itself out to the public as EBAA accredited. A bank accredited for limited functions must so designate itself in a manner that does not imply accreditation for full service. If using the EBAA Accredited Logo, a bank must use the version that corresponds to the functions for which it is accredited and for the dates listed on its most recent accreditation certificate.
- b. A non-accredited eye bank shall not hold itself out either expressly, or indirectly, as an EBAA accredited eye bank. All materials that identify its accreditation status must be submitted to the EBAA for approval prior to distribution.
- c. Eye banks provisionally accredited shall identify themselves as such.

This list represents information on file regarding the accreditation status of eye banks as of June 28, 2019. The eye banks are listed in alphabetical order by state and categorized by their accreditation designation. If a bank is non-accredited (Denied), it is listed as such with the date of denial. For further information, contact the EBAA office at 202-775-4999.
