February 21, 2022

Dear EBAA House of Delegate Members:

It is my great pleasure to write a letter in support of Brian Philippy's candidacy for EBAA Chair Elect. Like many of you, I've known and worked with Brian for over 15 years. I don't need to detail his long history of service to the Association. He's been on or served as Chair of numerous committees and has the requisite Board experience to be well-prepared for the position.

Brian's commitment to eye banking has been demonstrated time and again by his consistent hard work. When something needs to be done, Brian is there. He has creative ideas, is direct in his communication style, respectful and inclusive of alternative points of view, and has the leadership skills necessary to carry a project to completion.

Examples of Brian's skills that don't show up on his resumé include his stewardship of the Eye Banking Statistical Report. When Doyle Stulting and I first conceived of the project, Brian helped us take that from concept to completion, resulting in a database of much greater depth and utility than we could have hoped for. He is currently a valued contributor on the Corneal Graft Registry Steering Committee, another long-term project.

Brian clearly has the Association's best interests at heart and has demonstrated the will and ability to be a significant contributor to advancing its goal of sight restoration. He is an excellent choice for Chair-Elect and Chair.

Sincerely,

A handwritten signature in black ink, appearing to read "David B. Glasser". The signature is fluid and cursive, with the first name "David" being the most prominent.

David Glasser, M.D.
