

2021 Technician Education Seminar

Virtual Course: January 22 - March 5

The seminar will be a hybrid course featuring on-demand sessions delivered through eyeLEARN and a series of live virtual meetings. This course is intended for beginning eye bank professionals and will focus on the practical, technical, and scientific aspects of eye banking. Although it will be virtual, the course will include lectures, demonstrations, live case study discussions, breakout sessions and interactive activities.

Registration Deadline: January 11
