Re: Letter of Support for Edwin Roberts, MPA — EBAA Board Member At-Large

Dear EBAA Members,

I support Edwin Roberts for the position of At-Large member of the Eye Bank Association of America Board of Directors.

I have known Edwin through his involvement with the EBAA, including during my time as Chair of the Medical Advisory Board and through discussions connected to the Policy and Position Review Subcommittee. In those settings, Edwin has been a thoughtful and constructive participant.

He brings more than 26 years of eye banking experience with expertise in quality systems, regulatory compliance, technical workflows, and eye-bank accreditation/standards work.

Edwin has a careful, analytical approach to complex issues affecting eye banking. He has contributed meaningfully to discussions regarding HTLV and Chagas-related protocols, and he has also brought forward proposed changes to the Medical Standards that were reviewed and passed unanimously. His contributions reflect operational experience and a commitment to improving eye banking practices for the broader community. His contributions to the EBAA to date are in line with the insight we need for future EBAA leadership.

Edwin has served the eye banking community for many years and has remained actively engaged in EBAA committee work. I believe his experience, judgment, and steady approach would make him a strong candidate for service on the Board.

I support his candidacy without reservation.

Sincerely,

A handwritten signature in purple ink that reads "Winston Chamberlain". The signature is fluid and cursive.
